# Introduction

**3001**, What you're holding in your hands is the fourth book in series of rare records covers, after "Rare Record Cover Book", "1001 Record Collector Dreams", "2001 Record Collector Dreams" finally here "3001 Record Collector Dreams", again a selection of rare and great sixties and seventies beat, garage, psychedelic, progressive and folk-rock records from all over the world.

As supplement to my first book I've added 135 pictures of popular UK beat groups which had special (unique) covers on the Continent and Overseas, this part of the book is a bonus and is to be considered as an appendix to my first book "Rare Record Cover Book".

Since collectors, in the last few years, have shown growing interest in the folk-rock scene, I've decided to include in this book some folk-rock records which appear to me delightful both in musical sense and cover art. I would like to remark that in addition to England, Scotland, Ireland and Wales, traditionally known for their strong folk roots, there is an incredible reach folk scene to be discovered in countries such different as Norway, Chile, France, Spain or even the U.S.A. (all covered in this book).

A couple of records from the eighties have been included although the main selection is focused on the sixties and seventies.

A big thanks goes to pioneer collector and dealer Walter Geertsen who is still able to discover rare and brilliant records still unknown to collectors and offer them for sale in his lists. And although it's

# Introduction

becoming almost impossible to discover new groups from the sixties and seventies. Walter still succeeds and surprises collectors with new records from the most remote corners of the world, and this is exactly what collectors like me are looking for, there is nothing more exciting than get new records, still unknown in the collector scene, which are musically interesting and have a good cover art. Let me also mention Mr. Hiroshi Takizawa (GSM Records) from Japan, whom my respect goes, a pioneer in the field of international music, he started long ago exploring the record market in search of hidden jewels, he is still searching and helping collectors with xerox copies of discographies and record covers which he passes over at self cost price. I would like to thank some friends who helped me with material and information from their private collections, in my consideration they are to be rated as "Top Collectors".

Raymond Dumont, Alessandro Cerrai, Caveman Jacopo, Go Hirano & Ikuko, Haaken Eric Mathiesen, Sergio Torres Esquer, Ivan Bompani, Harald Korbar-Wegner, Feddo Renier, Stephan Collorado, Luiz Antonio Torge, Mario "Magic" Wunderlich, Daniel Iankoff, Dario Maffioli, Terje Aasdalen, Luc Wouters, George Raikos, Josef Schramm, Laszlo Varga, Reinhardt Bugl, Marcelo & Maria, Enrique Soriano Vilar, Ladislaus Deli, Peter, Franz, and other friends that i have forgotten to mention.

Hans Pokora

## A stylized world map centered on the Atlantic Ocean, showing the six continents. Each continent is filled with a unique, intricate pattern and a specific color scheme. North America and South America are colored in shades of red and orange with swirling patterns. Europe is dark blue with a pattern of small, repeating shapes. Africa is dark blue/black with a pattern of larger, swirling shapes. Asia is yellow and green with a pattern of small, repeating shapes. The Middle East is teal with a pattern of small, repeating shapes. Oceania is green with a pattern of small, repeating shapes. The map is set against a light blue background with a subtle, repeating pattern of small, repeating shapes. The labels for each continent are placed near their respective landmasses in a white, serif font.

**For the purposes of this book, the valuations given indicate the record and sleeve to be in mint condition. Prices are in Euro and German Currency.**

# Introduction

**3001**, What you're holding in your hands is the fourth book in series of rare records covers, after "Rare Record Cover Book", "1001 Record Collector Dreams", "2001 Record Collector Dreams" finally here "3001 Record Collector Dreams", again a selection of rare and great sixties and seventies beat, garage, psychedelic, progressive and folk-rock records from all over the world.

As supplement to my first book I've added 135 pictures of popular UK beat groups which had special (unique) covers on the Continent and Overseas, this part of the book is a bonus and is to be considered as an appendix to my first book "Rare Record Cover Book".

Since collectors, in the last few years, have shown growing interest in the folk-rock scene, I've decided to include in this book some folk-rock records which appear to me delightful both in musical sense and cover art. I would like to remark that in addition to England, Scotland, Ireland and Wales, traditionally known for their strong folk roots, there is an incredible reach folk scene to be discovered in countries such different as Norway, Chile, France, Spain or even the U.S.A. (all covered in this book).

A couple of records from the eighties have been included although the main selection is focused on the sixties and seventies.

A big thanks goes to pioneer collector and dealer Walter Geertsens who is still able to discover rare and brilliant records still unknown to collectors and offer them for sale in his lists. And although it's

# Introduction

becoming almost impossible to discover new groups from the sixties and seventies. Walter still succeeds and surprises collectors with new records from the most remote corners of the world, and this is exactly what collectors like me are looking for, there is nothing more exciting than get new records, still unknown in the collector scene, which are musically interesting and have a good cover art.

Let me also mention Mr. Hiroshi Takizawa (GSM Records) from Japan, whom my respect goes, a pioneer in the field of international music, he started long ago exploring the record market in search of hidden jewels, he is still searching and helping collectors with xerox copies of discographies and record covers which he passes over at self cost price. I would like to thank some friends who helped me with material and information from their private collections, in my consideration they are to be rated as "Top Collectors".

Raymond Dumont, Alessandro Cerrai, Caveman Jacopo, Go Hirano & Ikuko, Haaken Eric Mathiesen, Sergio Torres Esquer, Ivan Bompani, Harald Korbar-Wegner, Feddo Renier, Stephan Collorado, Luiz Antonio Torge, Mario "Magic" Wunderlich, Daniel Iankoff, Dario Maffioli, Terje Aasdalen, Luc Wouters, George Raikos, Josef Schramm, Laszlo Varga, Reinhardt Bugl, Marcelo & Maria, Enrique Soriano Vilar, Ladislaus Deli, Peter, Franz, and other friends that i have forgotten to mention.

## A stylized world map centered on the Atlantic Ocean, showing the six continents. Each continent is filled with a unique, intricate, swirling pattern. The continents are labeled with white text: North America (red), South America (red), Europe (dark blue), Africa (dark blue/black), Asia (yellow/green), Middle East (teal), and Oceania (green). The map is set against a light blue background with a subtle, repeating pattern of small, light blue swirls. The entire map is enclosed within a white oval border.

**For the purposes of this book, the valuations given indicate the record and sleeve to be in mint condition. Prices are in Euro and German Currency.**

# RD Records - the label

## Specialized in obscure US recordings

# LP & CD

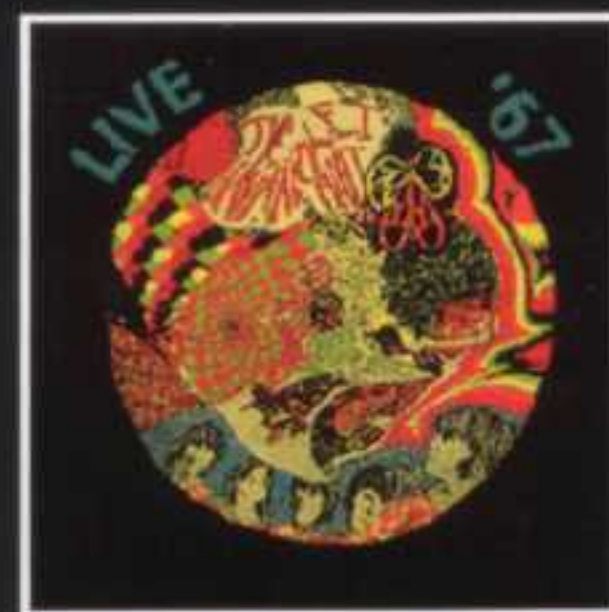

RD Records is a Swiss label and dedicated to the lost and neglected music of the late 60' and the 70's: From psychedelic to garage to loner folk stuff.

We do the records together with band members and try to include a story of the band in our projects.

What we like most are the "wide open spaces" best defined by the music of early Quicksilver Messenger Service, the Grateful Dead on their Live/Dead album, Kak and Tripsichord Music Box.

## The German Beatbands

A cover discography with approximately 2000 colour illustrations of the singles, EPs and LPs originating from the beat bands in Germany, Switzerland, Austria and other German-speaking nations between the years 1963 to 1972. The volume includes a section depicting the international groups and interpreters of the time living and performing predominantly in Germany (such as Ian & the Zodiacs, The Liverbirds, Casey Jones) and the section "Sung in German", featuring the international beat bands... - The Beach Boys, The Beatles, The Searchers, etc. - and their hits sung in German.
